

VALCKE GROUP INVESTS IN FURTHER GROWTH WITH NEW HEADQUARTERS AT THE EDGE IN WAREGEM

Valcke Group is taking an important next step in its continued growth. At the end of 2026, the company will relocate its headquarters from Wevelgem to The Edge in Waregem. At the new site, spanning nearly 20,000 m², Valcke Group will bring its Fitness and Bowling divisions together in a modern environment comprising offices, warehouses and showrooms.

The move represents much more than an expansion in space. With its new headquarters, Valcke Group is investing in an environment designed to support further growth while strengthening collaboration across its teams, service and logistics operations. Customers and partners will also have a central location where they can discover and experience the brands and solutions represented by Valcke Group.

Located close to the E17 motorway between Ghent and Kortrijk, The Edge provides a strategic and easily accessible base for the company. By bringing offices, warehouses and showrooms together at one location, Valcke Group will be able to organise its operations even more efficiently and support customers from one central site.

The relocation also marks the beginning of a new chapter for the family-owned company. Valcke Group has been based in Wevelgem since its founding and has grown from there into an international player in the bowling and fitness industries. As a result of this continued growth, the current location no longer provides the space required to support the company's further development.

"After all these years in Wevelgem, this move marks a new milestone in the history of Valcke Group. We want to create an environment where we can work efficiently, in a setting that reflects our ambitions, our teams and the future of Valcke Group," said Henri Valcke, CEO of Valcke Group.

"With Valcke Group joining The Edge, we are taking another important step in the continued development of the business park. The combination of high-quality offices and functional business spaces provides growing companies with the room they need to develop further. We are particularly proud that Valcke Group has chosen The Edge as the base for its continued expansion," emphasizes Dirk Deroose, CEO of LCV Real Estate.

With its new headquarters, Valcke Group is investing not only in additional space, but above all in the future. The site will provide the capacity and infrastructure required to support the continued international growth of its Fitness and Bowling divisions and to continue serving customers and partners to the highest standards in the years ahead.

About Valcke Group

Founded in Wevelgem, Valcke Group currently employs 80 people. The Group is the exclusive distributor of Brunswick Bowling in 14 European countries, as well as Life Fitness / Hammer Strength and Merrithew Pilates in France, Belgium and Luxembourg.
